

Key to the Bruegel Game Puzzle

This diagram indicates the 71 games that have been counted (perhaps there are even more) in the Pieter Bruegel painting shown on pages 92-93. Almost every game in 16th Century painting is still played today in exactly the way Bruegel pictured it or only slightly altered.

- | | | |
|--|--|---|
| 1 JACKS | OR WAGON WHEEL | by length of chain to player |
